

Message of Condolences from the Slobodan Milosevic International Committee National Sovereignty . Social Justice Re Death of Comrade John Jefferies –

To Mr Michael Donnelly, President of the Worker's Party of Ireland and all Members on the death last week of Comrade John Jefferies

From the Slobodan Milosevic International Committee National Sovereignty . Social Justice 18.2.2020:

We are deeply saddened to hear of the recent death of Comrade John Jefferies. John is remembered with great affection by members of our organisation and indeed by so many many people in Serbia for his outstanding campaign for peace and against the unrelenting anti Yugoslavia/anti Serbia propaganda during the lead up to and throughout the years after the horrific and illegal NATO aggression against the peoples of Serbia. And the people of the Serbian community in Bosnia.

John was one of the founding members of the International Committee to Defend Slobodan Milosevic. With his great knowledge of The Balkans region and IT expertise he quickly and professionally created the website for the ICDSM (Irish Section)

As stated within The Workers' Party of Ireland tribute to John: "Outside of Party politics John was a dedicated peace activist. As a teenager he joined CND and when that stopped being a campaigning organisation he joined PANA* where he remained an active member. John was particularly active in the campaign against the forced fragmentation of Yugoslavia and against the NATO bombing against Serbia and the deliberate NATO destruction of many historic sites across that country. During the NATO assault John actually visited Belgrade as part of an international peace delegation. Arising from this ceaseless activism John was the Irish representative at the World Assembly of the World Peace Council in Caracas, Venezuela in 2008."

Rest in Peace Dear Comrade John
