Dear Mr. Clark,

We congratulate you for a great human achievement – being a reliable guide, advocate and comrade for oppressed and justice-striving people worldwide.

Following your brave example, many men and women of honor joined our cause and opposed colonization of the Balkans, destruction of Yugoslavia and aggression against Serbia.

Thank you for being in Belgrade under the bombs in 1999 and 10 years later, in the great people's rally, to celebrate the victims and heroes. Thank you for protecting UN and International Law from the criminal perversion called *ad hoc* tribunals, for being several times at The Hague, giving valuable advice to President Milosevic and for following him in 2006, together with the people of Serbia, to his last journey.

Thank you also for helping the triumph of truth, which already seems to be by hand. The certain human triumph is the triumph of life and truth. The triumph of the truth is a precondition for the World of peace and prosperity. In that sense, there can be no better future for Europe without the truth on the aggression against Yugoslavia.

We highly appreciate the restless effort by the International Action Center, which you inspired, to spread knowledge and hope for the American people and for all the nations of humanity – in accord, equality and justice.

To achieve justice for Serbia, Balkans and Europe, to save people from the aggressive imperialist greed, your work is and will be indispensable. We express our sincerest best wishes for your 85th birthday and IAC's 20th anniversary, which we see as a holiday and jubilee of all of us.

We wish you many years of good health, creative spirit and joy for the success of our struggle!

On behalf of the Slobodan Milosevic International Committee,

Klaus Hartmann, Chairman of the Board
Vladimir Krsljanin, Secretary
